PROJECTS

Personal Projects

Streaming Platform C++

- Simulated a streaming platform utilizing C++ object-oriented programming principles, incorporating concepts such as inheritance, polymorphism, and pointers.

Web Portfolio

- Portfolio website that I've crafted using HTML and CSS. This online portfolio provides a visually appealing platform to display my projects, demonstrating both my technical skills and creative vision.

Booking Webpage

- Creation of a hostel reservation webpage, employing tools such as WordPress and APIs. This endeavor allowed me to combine my web development expertise with seamless integration of third-party services, resulting in a user-friendly and efficient booking platform.

Skills & Interests

Technical: C++, Python, CSS, HTML, GitHub, Lightroom, R Studio.

Language: Spanish - Native. English - Fluent

Interests: Photography, Technology, Cybersecurity.
